

In India

Edwards started operations in India in 1997 as a division of BOC India Ltd, but with the massive growth of the Indian economy over the last few years, it was decided to establish Edwards India as an independent company in 2007, headquartered in Mumbai. Two years later, in 2009, a service centre was established in Pune, and this has become the headquarters - not only supporting India, but also the South Asia region for customers based in Pakistan, Bangladesh and Sri Lanka.
