EDWARDS THE PARTNER OF CHOICE

Edwards is a world leader in the design, technology and manufacture of vacuum pumps for industrial applications with over 100 years' history.

We believe in delivering results that bring value to our customers by using our breadth of industry experience to identify and apply solutions. Using the most innovative and up-to-date modelling techniques, we can optimise the pumping configuration for customers to provide a system design giving the maximum performance in the most reliable and cost-effective way.

ERV SERIES

The Edwards ERV series are a range of robust and compact single-stage, oil sealed rotary vane vacuum pumps. These "Made in India" vacuum pumps offer high reliability, proven performance, these air-cooled vacuum pumps are an ideal solution to suit a broad range of requirements.

The series delivers consistent pumping performance and high pumping speed at low pressures provides an ideal solution for a wide range of applications. This pump with its ease of service ensures minimum maintenance and hence leads to allow overall life cycle cost.

The compact design of the pump with minimal vibration, quiet operation and lower oil consumption minimises environmental impact and leads to lower emissions.

Technology you can rely on

High pumping speed at low pressures

Gas ballast valve as standard

Integral anti-suck back valve

Exhaust mist filter with built-in bypass valve

Low oil-consumption

Air-cooled

RANGE OF PUMPS TO SUIT EVERY NEED

APPLICATIONS

Power industry

- Transformer/capacitor drying
- Oil purification

Composites

- RTM light / resin infusion
- Autoclaves

Utility vacuum

- Pick and place
- Conveying

Resin impregnation

Vacuum drying

Pharmaceutical and hospitals

Thermoforming

SERVICE AND SUPPORT

Our expertise is in vacuum technology. We have been in the business since 1919 and our knowledge runs deep. We design, develop and manufacture vacuum equipment to the highest standards.

But it's not just the technology. With a global installed base of 750,000 pumps, we understand how vacuum pumps and systems perform in real life. We know how to get the best from our products, whatever the application. We know how to look after them. That's why a large section of our expert workforce is dedicated to service and support.

Our service solutions include; on-site service, repairs and exchange, and quality spares. All built on our world-class technical know-how and backed by our sophisticated logistics and supply chain infrastructure.
