

LIFE SERVICES

THE RIGHT SERVICE AT THE RIGHT TIME

edwardsvacuum.com/service

Welcome

At Edwards we are proud that many of our products provide years of trouble-free operation. Our ability to rebuild and restore the performance of our pumps greatly extends their total operating life. Such longevity can bring new challenges because mechanical components within a vacuum pump will wear and need to be replaced several times in its operating life. The auxiliary systems on which the pump depends age differently. After a time, this can negatively affect the reliability of that pump. Replacing these items can help to prevent unexpected pump failure.

Introducing Edwards Life Service

Edwards Life Service is focused on proactively improving the reliability of 8 years or older vacuum pumps. Working at component level, Life Service replaces important items within the auxiliary systems of the pump. Such items include (but are not limited to):

- Fuses
- Variable Speed Drive(s)
- Power PCB
- Contactors and Relays
- Valves
- Sensors
- Solenoids
- Gas Module
- Wire Looms
- Connectors
- Manifolds
- Controller

Life Service proactively extends the reliability of older vacuum pumps delivered through our global network of Service Technology Centres.

Product range currently offered under Life Service:
iH, iGX, iXH, and iXL.

Value of Life Service

- Improve reliability of aging pumps
- Reduce unplanned downtime
- Extend the life and value of the customers asset

What is the Risk?

If auxiliary systems are not maintained the risk of failure will increase. Any failure can be incredibly inconvenient and expensive, and in the worst cases it could result in scrapped production at significant further cost. Unless specific components are replaced as part of a service, they are **NOT COVERED** under the terms of **STANDARD** service warranty.

Illustration of e-parts

Edwards Life Service Warranty

Choosing Life Service extends the warranty to cover all the additional components that were replaced as part of that extended service, providing you with extra peace of mind and reliable performance for years to come.

2-year warranty on all replaced e-parts.
