

CUSTOMISED PROTECTION FOR YOUR BUSINESS

Every business and application has unique demands, so achieving optimal availability and managing total cost of ownership requires a solution tailored to those needs. **Maintenance Care** offers expert support at every stage, delivering professional service and the right maintenance actions at the right time to increase uptime, reduce costs, and streamline budgeting.

Customised maintenance designed for you

When maintenance isn't aligned with your specific operational needs, it can lead to unexpected downtime, higher repair costs, production losses, and inefficiencies.

We help you with a customised approach, offering a plan that includes timely professional maintenance and planned overhauls or exchanges, tailored to your equipment's service history and application requirements.

A white technical diagram overlay on the right side of the page, featuring a central circle with the number "#1" inside, surrounded by various geometric shapes, lines, and plus signs, suggesting a complex system or process.

#1

How can you achieve more output, while spending less?

Unplanned or inefficient service interventions can lead to downtime, production losses, and operational inefficiencies. Our solution schedules all essential services in advance, covering routine maintenance and planned overhauls or exchanges, all under a single purchase order.

Customers with Maintenance Care save an average of 20% on service costs over five years!

How can you improve uptime to align with your business goals?

Unchecked wear and delayed service can lead to premature failure and shorten equipment lifespan. Our vacuum specialists take a proactive approach, delivering regular maintenance and planned overhauls tailored to your operational needs.

Customers with a Maintenance Care benefit from up to 18 additional days of uptime per year.

How can you streamline your budget planning and reduce cost uncertainty?

When service and repair costs vary and unexpected breakdowns occur, managing budgets becomes challenging and unpredictable. We offer you a customised, pre-planned service agreement aligned with your operations, covering all essential maintenance, including planned overhauls or exchanges throughout the duration of the plan.

Genius
INSTANT INSIGHTS™

Real-time monitoring empowers you to stay ahead of service needs, enabling timely interventions that prevent downtime, reduce costs, and keep your operations running smoothly. With ServicePlan™ you have the option to connect to GENIUS Instant Insights™, a remote monitoring solution that provides instant access to performance and service status from anywhere.

**only compatible with select vacuum pump models.*
