

# EDS CHEMICAL DRY SCREW VACUUM PUMPS

## EDWARDS THE PARTNER OF CHOICE

Edwards is a world leader in the design, technology and manufacture of vacuum pumps for industrial applications with over 100 years' history.

We believe in delivering results that bring value to our customers by using our breadth of industry experience to identify and apply solutions. Using the most innovative and up-to-date modelling techniques, we can optimise the pumping configuration for customers to provide a system design giving the maximum performance in the most reliable and cost-effective way.

# CLEAN AND ENERGY-EFFICIENT VACUUM SOLUTIONS FOR CHEMICAL PROCESS INDUSTRIES

Edwards installed its first dry pump for a pharmaceutical application in 1988. It is yet to be replaced. This is a testament to the highest quality, safety and service standards. Our combination of applications expertise, diverse product portfolio, engineering strength and global presence puts us in a unique position to be able to design and maintain the best solution for chemical process industries. The EDS Dry Screw chemical vacuum pump offers the latest screw technology to provide a clean, effluent-free vacuum specifically for the chemical, pharmaceutical and petrochemical industries.

With rapid advances in technology, chemical processing industries place increasingly challenging demands on vacuum systems. Vacuum pumps need to handle increasingly complex chemicals, solvents and compounds in a reliable and safe way while ensuring control and reduction of environmental pollution at a low cost of ownership.

It is crucial for systems to be “plug and play” with minimum setup or have configurable options available when required to suit specific chemical processes. The EDS Dry Screw chemical vacuum pump with its strong focus on the fine chemical and pharmaceutical markets serves a wide range of chemical applications.

## PUMP TECHNOLOGY

### SIMPLE

Advanced screw vacuum technology simply packaged

- **Peace of mind:** Ease of installation, systemisation, support and service
- **Pumping:** Designed to be reliable

### PROCESS CAPABLE

Mechanism proven in the most demanding applications

- **Extended MTBS:** Purge protection options to prolong life in harsh processes
- **Increased process uptime:** Survives process mishaps and contaminant ingestion

### FASTER

Extra performance to meet modern day technologies

- **Quick pump down times:** Higher roughing speeds get the job done quicker
- **High pumping speeds:** Give more throughput where it matters

### ROBUST

Built for challenging chemical installations

- **Installation options:** Highly tolerant water-cooled standard products
- **Protection:** High IP ratings

### FLEXIBLE

Designed for a changing global market

- **Safe and compliant:** Easily configured for hazardous area installations
- **Engineer-to-Order:** Basic modular building blocks for special pumping systems

### ATEX COMPLIANT

Safe for hazardous area installations

- **Designed to be capable of handling gases:** From a potentially explosive atmosphere
- **Certified:** Under the ATEX directive 2014/34/EU
- **Global compliance:** Flexible to adapt to all global explosion-proof standards

# EDS CHEMICAL SYSTEM AT A GLANCE

At the heart of the EDS Dry Screw pump is the tapered variable pitch dry screw mechanism.

-  Direct and Indirect shell and tube heat exchanger cooling options
-  ATEX Cat 1 and Cat 2 standard variants to meet T3 and T4 temperature classes
-  Bare-shaft variants available for flexibility to meet any global Ex Proof standards
-  Wide range of standard accessories available
-  Purge flow rotameters as standard
-  Compressed air gas ballast

EDS vacuum pump + EH booster combination

EDS480

EDS Chemical (ATEX)

Compact heat exchanger for indirect cooling options

APPLICATIONS

The EDS range is suitable for a wide range of chemical applications including:

- Lithium-ion batteries
- Distillation applications
- Solar crystal pulling
- Fine chemicals
- Oil treatment plants
- Pharmaceuticals
- Petrochemicals
- Flammable and corrosive gases
- Degassing
- Dewatering and filtration
- Polymers and plastics production

For a complete list of chemical applications and processes, please contact your local Edwards representative.

PERFORMANCE CURVES

EDS 200, 300 and 480  
(Imperial and metric)

TECHNICAL SPECIFICATIONS

			Metric		
			Chemical		
			EDS200	EDS300	EDS480
Performance	Peak pumping speed	m³h <sup>-1</sup>	210	>280	> 460
	Ultimate pressure	mbar	<0.05	<0.01	< 0.01
Full load power	@ ultimate pressure	kW	4.1	4.5	4.5
	@ peak pumping load	kW	6.4	8.2	11

## ACCESSORIES

Part number	Accessories	Pump compatibility
A41890000	TCV kit (Direct cooled)	All direct cooled EDS pumps
A41890001	TCV kit (Indirect cooled)	All indirect cooled EDS pumps
A41891001	Solenoid valve accessory	All EDS pumps
A41893000	EDS to EH 1200/2600/4200 connection kit	200/300 pumps only
A41893001	EDS to EH500 connection kit	200/300 pumps only
A41894000	Exhaust pressure transmitter	All EDS pumps
A41895000	Pt100 stator temperature transmitter	All EDS pumps
A41895001	Pt100 exhaust temperature transmitter	All EDS pumps
A41897000	BoV plug kit	All EDS pumps

## SERVICE AND SUPPORT

To ensure your EDS Dry Screw vacuum pump maintains optimal performance and reliability, we offer a wide range of service solutions, tailored to meet your needs. From Field Service intervention, Managed Maintenance agreements and Overhaul service in our Service Technology Centres (STC), we will take care of your pump to ensure that it continues to deliver clean, consistent, efficient performance, with lower running costs and optimum total cost of ownership for its operating life.

Selecting original spare parts, maintenance kits and oil means that every critical part performs as it was intended. Our services engineers only fit 100% genuine parts to ensure you receive the best result from each service.

Our Preventative Maintenance service packages include:

- **Health check and routine service check** - Various flexible services to keep your pump running in an optimal condition for your application, including visual inspections, pump vitals checks and replacement/cleaning of components.
- **Overhaul** - The overhaul service includes multiple service options to ensure high performance and minimal downtime.
  - » **Complete remanufacturing** including full decontamination of the pump, replacement of consumables and components tested to factory specifications.
  - » **Clean and overhaul** including cleaning of pump interior, repair/replacement of pipework, replacement of consumables and reassembly.
  - » **Module exchange** including removal and assembly of motor, gearbox, gas and water systems onto replacement pump module.
  - » **Pump exchange** includes exchange of whole pump (including motor, gear box, gas and water systems) replaced with remanufactured pump.
